

1) Login to your PiMedia Torrent Downloader

At Home Address: <http://demo.pimedia.ca:9091>

Outside Address: <http://demo.pimedia.ca:9091>

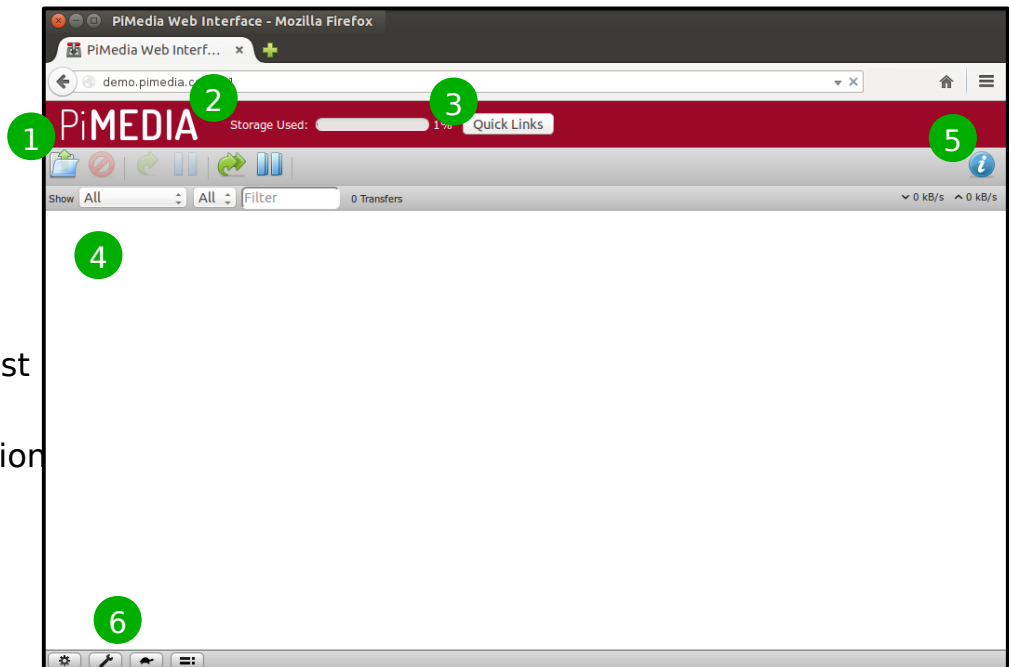

Username: _____ Password: _____

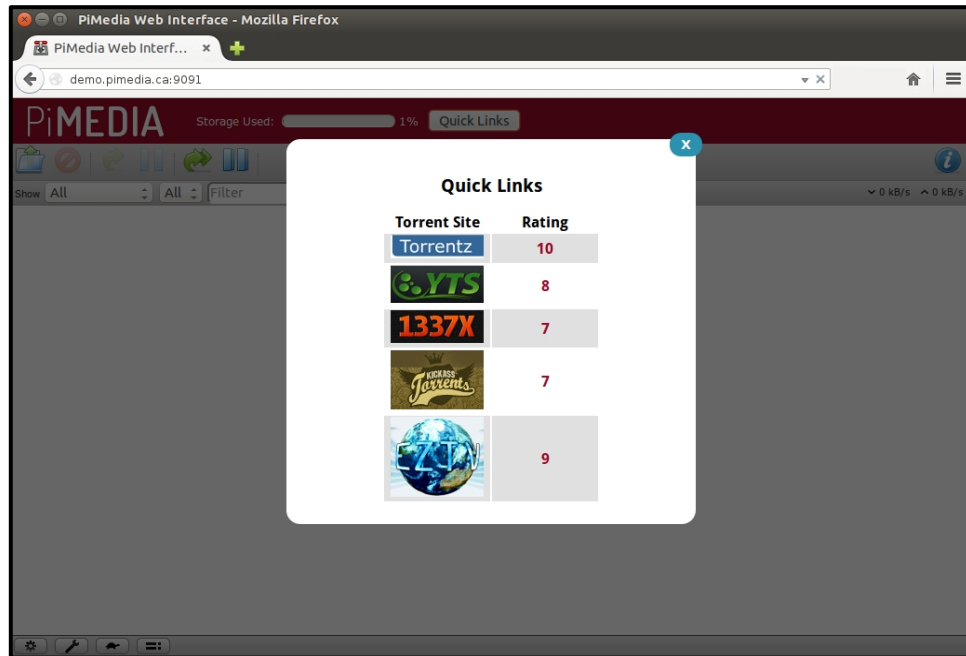

2) PiMedia Web Interface

This is your media download web interface. Use this tool to initiate torrent downloads.

- 1 Upload Torrent
- 2 Library Free Space
- 3 Torrent Web Sites
- 4 Download Status List
- 5 Download Information
- 6 Settings

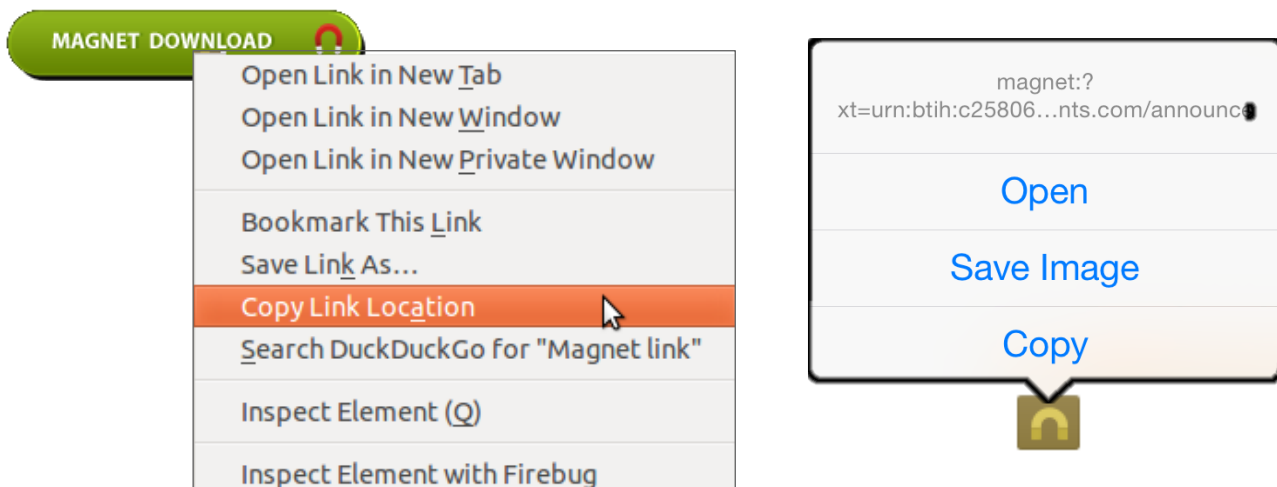

3) Click “Quick Links” or find your own Torrent Website via Google

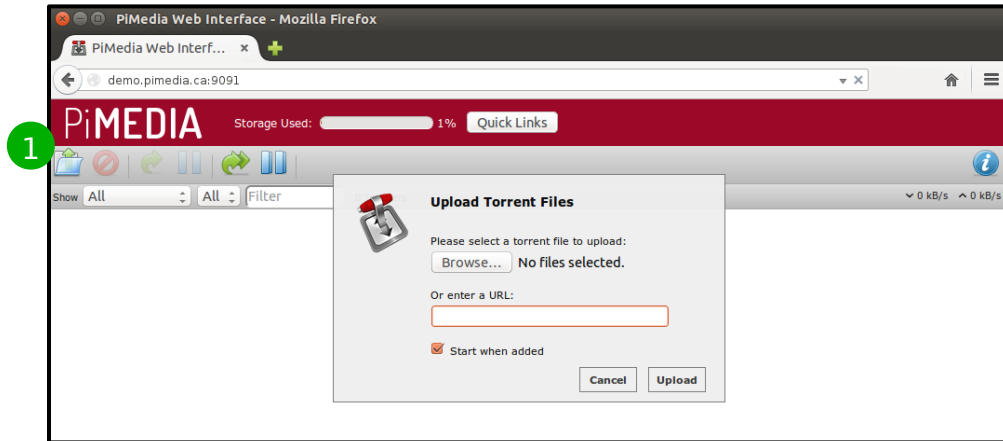

4) Once you find a torrent look for the Magnet link

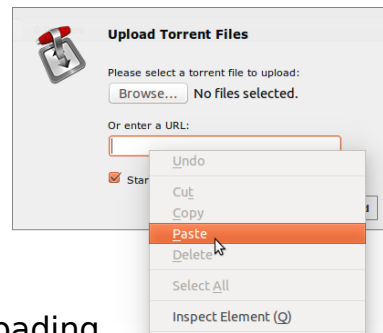

5) “Right Click” (on a PC) or “Touch and Hold” (Apple iPad or Tablet) the Magnet Link to “Copy the Link/Shortcut”

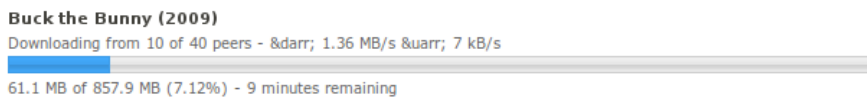

6) Go back to PiMedia Web Downloader and Upload the Torrent Magnet by “Clicking” the Blue Folder 1

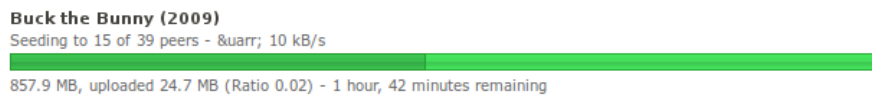

7) “Right Click” (on PC) or “Touch and Hold” (on iPad or Tablet) on the Textbox and “Paste” the Torrent Magnet you copied in step 5. Then Click “Upload”.

8) In a few seconds you Torrent should start downloading.

9) When the Torrent has finished it will turn green.

10) “Right Click” on the Torrent to preform various tasks like deleting it from your library or removing it from your list of downloads without touching your library.
